TO BE COMPLETED BY FUNERAL DIRECTOR

TO BE COMPLETED BY PHYSICIAN: MEDICAL CERTIFICATION

BALTIMORE, MARYLAND 21215-0020

DIVISION OF VITAL RECORDS, P.O. BOX 68760,

TO THE HOSPITAL OR ATTENDING PHYSICIAN: The law requires that the death certificate be executed within 24 hours after death. Page 6 may be retained by the hospital or attending physician.

TO THE FUNERAL DIRECTOR: After this certificate has been signed by the attending physician and completely filled in by the funeral director, page 5 should be detached for use as the burial-transit permit. Pages 1, 2, 3, 4, and 6 should be retained by the funeral director.

IMPORTANT: If item 28 is marked, or item 23 shows any injury, or other traumatic event, the medical examiner must be notified at once.

The first part of the paper is devoted to a discussion of the
 various methods which have been proposed for the determination of
 the rate of reaction between a solid and a liquid. It is shown that
 the most reliable method is that of measuring the change in the
 weight of the solid as the reaction proceeds. This method is
 applicable to all cases in which the solid is insoluble in the
 liquid, and the reaction is not too rapid. It is also applicable
 to cases in which the solid is soluble in the liquid, provided
 that the concentration of the solid is kept low. The second part
 of the paper is devoted to a discussion of the various factors
 which influence the rate of reaction between a solid and a liquid.
 It is shown that the rate of reaction is influenced by the
 nature of the solid, the nature of the liquid, the temperature,
 the surface area of the solid, and the concentration of the
 liquid. The third part of the paper is devoted to a discussion
 of the various theories which have been proposed to explain the
 rate of reaction between a solid and a liquid. It is shown that
 the most satisfactory theory is that of the collision theory.

The rate of reaction between a solid and a liquid is influenced by the

nature of the solid, the nature of the liquid, the temperature,

the surface area of the solid, and the concentration of the liquid.

TO THE HOSPITAL OR ATTENDING PHYSICIAN: The law requires that the death certificate be executed within 24 hours after death. Page 6 may be retained by the hospital or attending physician.
TO THE FUNERAL DIRECTOR: After this certificate has been signed by the attending physician and completely filled in by the funeral director, page 5 should be detached for use as the burial-transit permit. Pages 6 and 7 should be filed within 72 hours after death with the State Dept. of Health and Mental Hygiene prior to burial, cremation, or removal.
IMPORTANT: If item 28 is marked, or item 28 shows any injury, or other traumatic event, the medical examiner must be notified at once.
